Re: RM-9208

Dear Sirs:

Please consider approving proposal RM-9208, the Rodger Skinner LPFM Petition for Rulemaking. This proposal is for licensing of Low Powered FM broadcasting.

I am a member of a small ethnic group (approximately 5000) living within a radius of about 2 kilometers of one another. We have tried to get airtime on a commercial station, but the hourly cost is far too prohibitive at \$200-\$400 per hour.

We would like to broadcast:

- ethnic music 24 hours a day,
- classes in our language and culture, and
- children's shows on weekends and early evenings.

Most of what is broadcast on commercial stations does not apply to our ethnic group's culture and language. The commercial stations broadcast content is not suitable for our children or is simply not of interest.

Our broadcasting needs would be served with a low powered, 10 watt transmitter to cover our neighborhood.

Please approve the proposal.

Thank you,

Daniel Harris
